

PAJUNK®

FlowSys HF and EcoHF
Electrode systems for HF surgery

HF surgery

MADE IN GERMANY

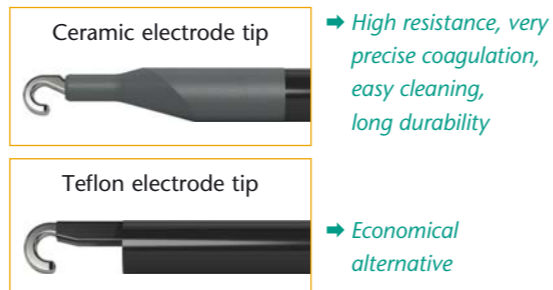

Comprehensive assortment

Electrode systems for HF surgery

PAJUNK® offers various solutions for HF surgery:

- Adaptable HF electrodes to extend the functional range of the modular instrument system suction and irrigation
- HF single electrodes with integrated handle in different designs

Depending on the product group, the electrode tips are made of teflon or harder wearing ceramic, which is very easy to clean.

Modular instrument system Series 1299 with adaptable monopolar HF electrodes

FlowSys Ergo HF and FlowSys Eco HF

Both handles are easy to operate for both left-handed and right-handed users. The suction and irrigation strength can be infinitely adjusted via a controller.

FlowSys HF and FlowSys Twin HF

The handles with trumpet valve are available in two versions – with single or double trumpet valve.

Four handles with HF connection:

FlowSys Ergo HF

FlowSys Eco HF
chrome-plated or in stainless steel

FlowSys HF

FlowSys Twin HF

HF single electrodes with integrated handle

EcoHF Series 2002

- Coagulation
- Combined disposable/reusable (Disposable electrode/reusable handle)

Handle HF-C Series 2000

- Coagulation
- Reusable

Flow Handle HF Series 2000

(Details see order section)

- Suction/Irrigation
- Coagulation
- Reusable

Adaptable HF electrodes with suction/irrigation channel Series 1299:

FlowTube HF / HF-C: Adaptable, monopolar HF electrodes made of ceramic or teflon

Suitable for:

- Suction/Irrigation
- Coagulation
- Reusable

FlowTube HF RET / HF-C RET: Retractable, adaptable monopolar HF electrodes made of ceramic or teflon

Suitable for:

- Suction/Irrigation
- Coagulation
- Reusable

Adaptable HF electrodes with suction / irrigation channel Series 1299

Suitable for: 

- Suction/Irrigation
- Coagulation
- Reusable

FlowTube HF / HF-C: Adaptable, monopolar HF electrodes made of ceramic or teflon

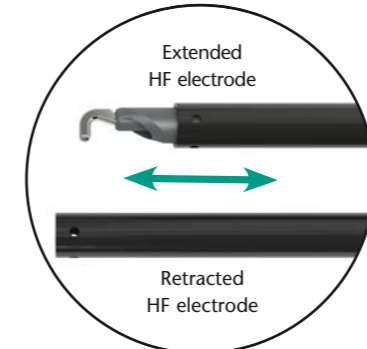

This HF electrode has a Luer Lock connection which, together with an additional sealing system, also protects the system against liquid ingress. HF electrode come with either teflon or ceramic tip and always with integrated suction/irrigation channel.

Integrated suction/irrigation channel

FlowTube HF RET / HF-C RET: Retractable, adaptable monopolar HF electrodes made of ceramic or teflon

With the retractable monopolar HF electrodes, the electrode tips can be completely retracted into the suction/irrigation tube. The HF electrodes can be rotated, retracted and extended with one hand thanks to the ring gear.

The ring gear is pushed towards the tip – at the same time the outer tube slides over the electrode.

The handle of short distances

FlowSys Ergo HF

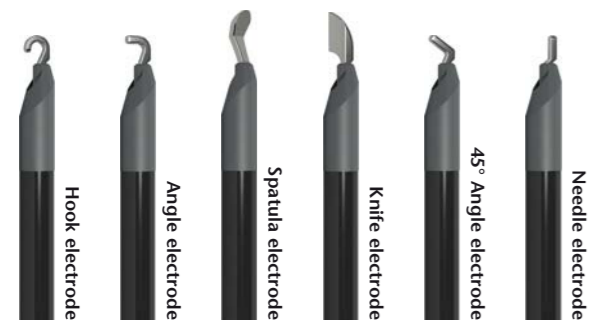

→ Perfected ergonomics – optimised operating angle for fatigue-free work

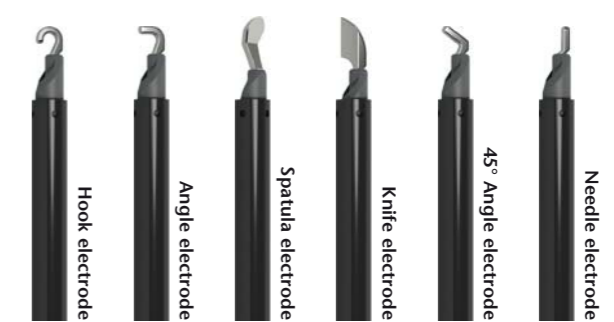

→ Simple fine control of the suction/irrigation volume or of the fume extraction system

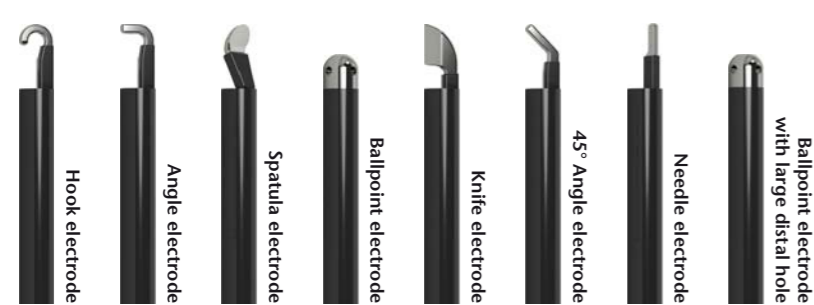

FlowTube HF-C electrode attachments made of ceramic Series 1299

FlowTube HF-C RET electrode attachments made of ceramic Series 1299

FlowTube HF electrode attachments made of teflon Series 1299

FlowTube HF RET electrode attachments made of teflon Series 1299

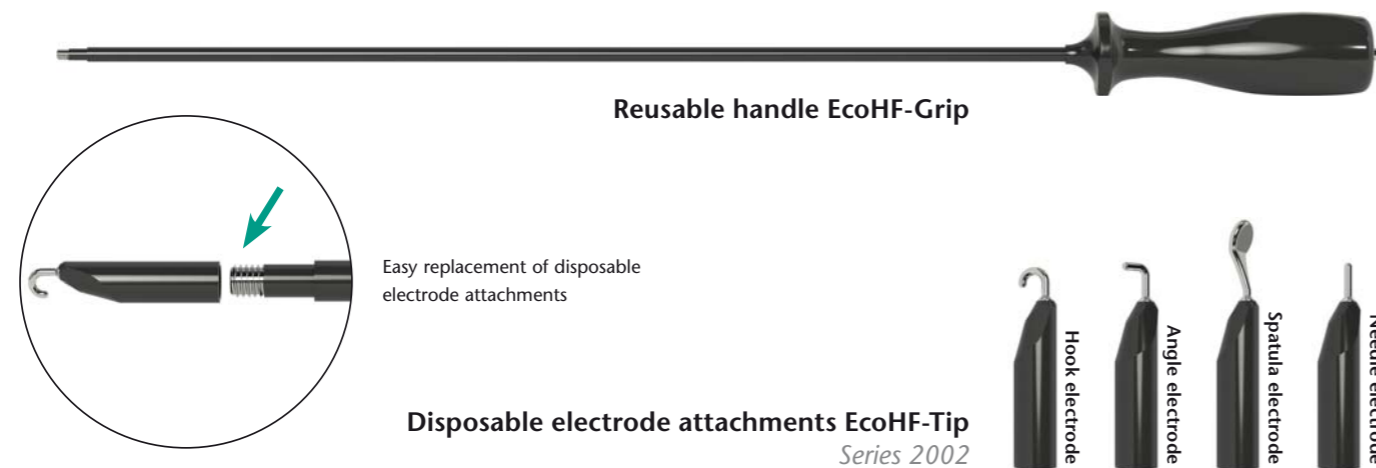

HF single electrodes with integrated handle

EcoHF: Reusable handle with disposable electrode attachments *Series 2002*

- Coagulation
- Combined disposable/reusable system

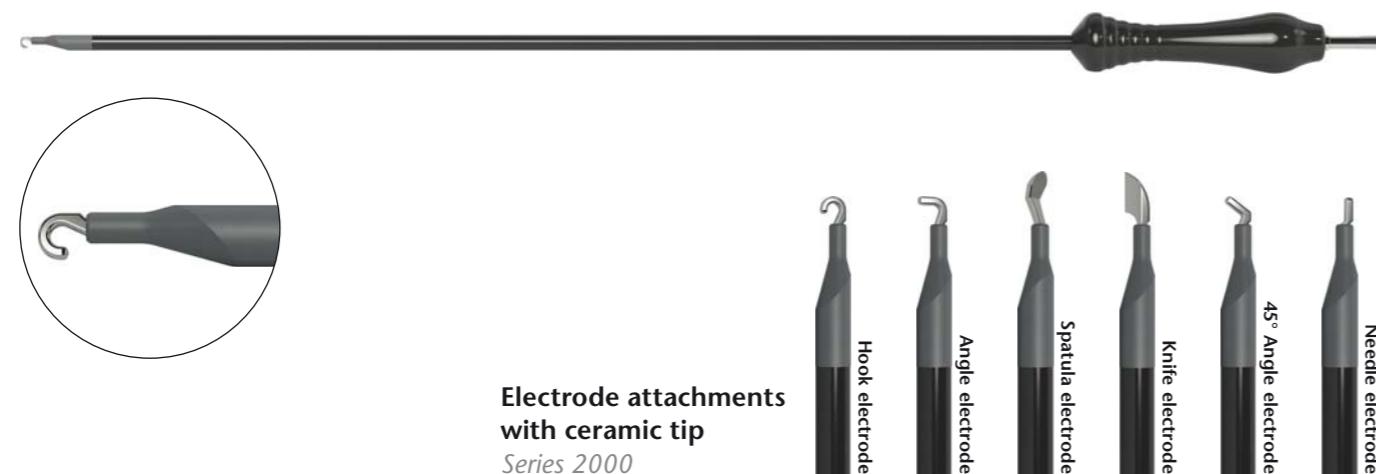

This combined disposable/reusable system allows the user a flexible selection of the optimal electrode geometry for the respective application. The system is made of high-quality insulation material (PEEK) and ensures safe operation even at high voltages.

Handle HF-C: Reusable single electrodes *Series 2000*

- Coagulation
- Reusable

In this version, the suction/irrigation channel is not installed, which makes cleaning considerably easier.

Monopolar HF-electrodes/handles

FlowSys

Product	Article description	Item no.
FlowSys HF	Trumpet valve handle with rotary adapter	1299-01-00
FlowSys Twin HF	Handle with double trumpet valve, removable ergonomic grip plate, 2 connectors LL female	1299-41-00
FlowSys Eco HF	Pistol handle, with rotary adapter and maintenance-free chrome-plated 2-way valve	1299-61-00
FlowSys Eco+ HF	Pistol handle, with rotary adapter and maintenance-free 2-way valve in stainless steel	1299-62-00
FlowSys Ergo HF	Ergonomic pistol handle with rotary adapter and maintenance-free 2-way valve in stainless steel	1299-81-00

FlowTube HF / FlowTube HF-C

Product	Article description	Working length	Item no. Ø 5 mm
FlowTube HF (teflon) adaptable, monopolar	Hook electrode	340 mm	1299-00-11
	Angle electrode	340 mm	1299-00-12
	Spatula electrode	340 mm	1299-00-13
	Ballpoint electrode	340 mm	1299-00-14
	Knife electrode	340 mm	1299-00-15
	45° Angle electrode	340 mm	1299-00-16
	Needle electrode	340 mm	1299-00-17
	Ballpoint electrode, with large distal hole Ø 2.5 mm	340 mm	1299-00-24
Suction-irrigation pipe, insulated	340 mm	1299-00-30	
FlowTube HF-C (with ceramic tip) adaptable, monopolar	Hook electrode	340 mm	1299-01-11
	Angle electrode	340 mm	1299-01-12
	Spatula electrode	340 mm	1299-01-13
	Knife electrode	340 mm	1299-01-15
	45° Angle electrode	340 mm	1299-01-16
	Needle electrode	340 mm	1299-01-17

FlowTube HF RET / FlowTube HF-C RET

Product	Article description	Working length	Item no. Ø 5 mm
FlowTube HF RET (teflon) retractable, adaptable, monopolar	Hook electrode	340 mm	1299-10-11
	Angle electrode	340 mm	1299-10-12
	Spatula electrode	340 mm	1299-10-13
	Knife electrode	340 mm	1299-10-15
	45° Angle electrode	340 mm	1299-10-16
	Needle electrode	340 mm	1299-10-17
FlowTube HF-C RET (with ceramic tip) retractable, adaptable, monopolar	Hook electrode	340 mm	1299-11-11
	Angle electrode	340 mm	1299-11-12
	Spatula electrode	340 mm	1299-11-13
	Knife electrode	340 mm	1299-11-15
	45° Angle electrode	340 mm	1299-11-16
	Needle electrode	340 mm	1299-11-17

HF electrodes with integrated handle
