

# Quadrain

Drainage Catheter for Postoperative Wound Drainage

Post-operative or chronic wounds always bear the risk of troubles during wound healing related to fluid accumulation in the affected tissue. Potential results include haematoma and seroma (exudate/lymph fluid) as well as the formation of pus in the wound cavity. Pajunk offers the Quadrain Drainage Catheter as a solution for the post-operative wound drainage to significantly reduce risk of inflammation.

The Quadrain drainage catheter is designed for most soft tissue procedures in general surgery, gynecological surgery, neurosurgery, orthopedic surgery, plastic and reconstructive surgery and thoracic as well as cardiovascular surgery.

→ No clogging of catheter lumen

# Quadrain

Drainage Catheter

Description	Item no.	PU
10 F, 500 mm (3.3 mm) with 4 filaments	1298-99-10	25
12 F, 500 mm (4.0 mm) with 4 filaments	1298-99-12	25
15 F, 500 mm (5.0 mm) with 4 filaments	1298-99-15	25
